

NUSS Professional Services Group

4120 Jackson Street
Denver, CO 80216

October 27, 2006

To whom it may concern:

The IT Department at Nuss Professional Services Group provides communication support for emergency logistics services. Because we work in a reactive environment, we rely heavily on solid answers, excellent communication and clear solutions from our vendors. COMtuity and Carrie Olejnik provide all of these and more! Since I began working with COMtuity on my telephony and communications projects, I can focus on support of my customers and rest assured that "Carrie O" will connect me with the best service and price combination for any need! Carrie has always been available to help with "what if" scenarios which has been invaluable in planning for future growth and change. My best advice; "Call COMtuity!"

Donald Finger, President and CIO
